When Shirt Waists Are Soiled.

It's our business to keep the summer shirt waists looking as neat and pretty all summer as when they first come from the shop. We transform the soiled shirt waists into sweet, clean, dainty garments.

The new summer waists need unusual care in handling. Only the purest washing materials are used in our laundry, such as do not fade or injure fabrics, and our **Wip** is skilled in washing and ironing waists, as we have made a special feature of this work for years.

It's a Great Year For Men's Wash Vests.

A light vest makes a pleasant contrast with a dark suit of clothes. But the wash vests require frequent laundering.

We want all the men to know how much care and attention we also give to this work. The vests are starched just enough to hold their shape, and we do not fade the material.

Summer Clarets!

No person of experience and refined taste disputes the hygienic importance of red wine for the table and for the hot season, particularly as material for sips of light, refreshing punches, sangaree, etc. For that purpose a Claret should be selected that possesses sound fruit acids and abounds in iron for tempering the blood. Great vitality is another requisite for allowing dilution. In this regard no other wines can cope with.....

Chris Xander's Virginia Clarets.

Our American Burgundy, containing in greater proportions all the elements that compose the French prototype. Norton is our highest class Virginia Claret and is most dilutable.

A charming table Claret of pleasing delicate taste and bouquet.

With many families a favorite table Claret at a very moderate price and excellent for making summer punches.

X Va. Claret, \$1.75 Doz.

This Wine, of a clean and nice taste and of a quality that would justify a much higher price, is worth the attention of families for table use, and is an addition to the cool glass of water to prevent chilling the stomach in summer. Virtually, it results cheaper than milk or beer. Unlike these, it is (as are all of Chris Xander's Va. Clarets) the safest and truest thirst-quenching medium; acts favorably on kidney and liver; aids digestion; destroys disease germs, and respects the nerves.
